

Thaumaturgic Border Protection

“Securing the Nation’s borders – in the physical, astral, and ethereal planes”

unclassified – for official use only (FOUO)

Homeland
Security

Objectives

- **Dynamically securing our strategic national borders**
 - **Drug dealers, illegal immigrants, terrorists, and other undesirables not welcome in today's America**
 - **Bad juju from disaffected voodoo priestesses, state-sponsored Venezuelan witch-doctors, North Korean mad scientists**
 - **All-encompassing defense to protect against evolving threats**
- **Cost-effective and sustainable result-oriented security**
 - **What is domestic security worth?**

Short and long-term funding

 - **Leveraging our human capital can and will result in dynamic mission statements and correspondingly large initial program grants**
 - **Even displaying responsiveness, teamwork, and strategic logistical planning won't guarantee long-term funding.**
 - **This time, we need a solution that WORKS!**

What do we protect and why?

- **The USA PATRIOT Act defines critical infrastructure as those “systems and assets, whether physical or virtual, so vital to the United States that the incapacity or destruction of such systems and assets would have a debilitating impact on security, national economic security, national public health or safety, or any combination of those matters.”**
- **Our critical infrastructures are particularly important because of the functions or services they provide to our country. Our critical infrastructures are also particularly important because they are complex systems: the effects of a terrorist attack can spread far beyond the direct target, and reverberate long after the immediate damage.**

Non-Critical Infrastructure

There isn't any.

No room in America for dead weight.

How do we accomplish this task?

- Leverage America's unique, dynamic thaumaturgic resources to protect our national border
- Employ under-performing fringe segments of population in nation's interest
 - Possible avenue for grants? *NCLB funding?*

Convince populace of necessity of undertaking, and unacceptable costs of failure

- Where there's a *Will*, there's a *Way*

Possible Partner Groups

- Traditional Judeo-Christian secret societies
 - Pros: no danger to eternal souls, easy sell to congress
 - Cons: require cash, reputation for buggery, possible frauds

- Church of Satan
 - Pros: do whatever Karl tells them
 - Cons: practically impossible to control *Karl*

- Pagans / Wiccans / Neopagans (P/W/NPs)
 - Pros: work cheap
 - Cons: organizing them is like herding cats

The Plan

“It's not good enough for Reagan, he's too square to be a Pagan...”
- *anonymous*

Enlist the neopagan community to banish Enemies of America from our borders, and keep them out.

Why Cavort With Heathens

- Low wages
- Large numbers
- Competitive attitude

Our Last, Best Hope...

- Fences aren't working; porous water borders
- Witch gap - CIA says UBL and al Qaeda have no magi
- Proof of concept for future magickal national-security ops

How It's Supposed to Work

- Unify a national effort to secure America's homeland
- Prevent and deter terrorist attacks
- Protect against and respond to threats and hazards to the Nation
- Detect and prevent acts of terrorism, natural disasters, or other emergencies
- Coordinate the protection of our Nation's defense across all sectors

The Challenge to Achieve a National Magickal Barrier

- 85% of all Witches, Wiccans, and neopagans are *liberals*
- The Department of Homeland Security (DHS) must work with state, territorial, local, and tribal organizations to coordinate key resources and information
- To help the neopagan community better protect the Nation's assets, DHS is placing Pagan Security Advisors (PSAs) in covens, lodges, groves, and circles throughout the country

DHS Provides Community-Based Support

Pagan Security Advisors will:

- Advise and direct local and state magickal security efforts which are coordinated by the state Homeland Security Advisors
- Support the development of the national supernatural risk picture by identifying, assessing, monitoring, and minimizing risk to the physical, ethereal, and astral planes at the local level
- Upon request, facilitate and coordinate short-term, limited-scope local magickal defensive operations

Pagan Security Advisors Will Also...

- Provide reach-back capability to DHS and other Federal government resources
- Assist in confirmation of sacred groves and other pagan holy places for accurate inclusion into the National Asset Database
- Serve as advisors regarding local neopagans during activation of the National Response Plan
- Provide local context and expertise to DHS to ensure that community resources are used effectively

Value of the Program to You

Pagan Security Advisors will:

- Support comprehensive risk analyses of local W/W/NPs
- Assist in the review and analysis of physical/metaphysical security of local critical infrastructure
- Convey local concerns and sensitivities to DHS and other Federal agencies
- Communicate requests for Federal training and exercises

How Can You Help?

- Engage with Pagan Security Advisors to facilitate protective/defensive actions and establish priorities and the need for information
- Assist in efforts to identify, assess, and enlist W/P/NPs in your community
- Communicate local paranormal protection related concerns
 - Business and economic ramifications of actions
 - Issues unique to the community
